

ELEONORA MARETTI

H-index: 8
N° of citations: 197
N° of articles: 23
Total IF: 95.405

PERSONAL DETAILS

May 13, 1988

Viale Vittorio Veneto 127,
41124 Modena (MO)

ele.maretti@gmail.com

334/3046172

www.linkedin.com/in/leonora-maretti-962b55a7/

WORK EXPERIENCE

April 16, 2020 – present
POSTDOCTORAL RESEARCH
Lab. of Drug Delivery and Targeting,
Department of Life Sciences, University of Modena
and Reggio Emilia

Winner of a research grant from the Emilia Romagna region for "Micro-ReSkin: nanotechnology for skin reparation".

- Design of a topical product for skin reparation using nanoparticle technology
- Development of a business model

May 7, 2020 – present
CO-FOUNDER & CHIEF EXECUTIVE OFFICER
PerFormS s.r.l. (Start-up of University of Modena and Reggio Emilia) www.performslab.com

Developed and implemented business plan and strategy; identified and exploited new opportunities.

- Pro-actively participated in all facets of the company and worked closely with other executives to sustain growth and stabilized the business
- Author of 1 patent

July 8, 2019 – January 7, 2020
TEMPORARY CONTRACT
University of Modena and Reggio Emilia

Operating manager of the project "Development of biodegradable and biocompatible carriers for insecticide" in collaboration with Endura SpA.

- Physico-chemical characterization of the micro-carrier
- Photo stability test

June 16, 2018 – June 16, 2019
POSTDOCTORAL RESEARCH
University of Modena and Reggio Emilia

Operating manager of the project "Study of the interactions between lipid-based carriers and alveolar macrophages for the inhaled anti-tubercular therapy: the influence of the surface-decoration process".

TONGUES

Mother tongue: Italian
Other: English (B1),
Spanish (A2)

SKILLS

Organizational

Ability to manage a research laboratory (project development, contacts with companies for quotes, order management), capacity in development of projects for funding, research projects, participation at conferences. Advisor of 9 theses (in Biotechnology and Chemical and Pharmaceutical Technologies)

Technical

Preparation of nano- and microparticles by using traditional and innovative methods. Good knowledge of laboratory equipment such as UV-VIS spectrometry, differential scanning calorimeter, drug dissolution instruments, Franz-cell, freeze-dryer, optical microscope, scanning electron microscopy, transmission electron microscopy, Fourier transform infrared spectroscopy, photon correlation spectroscopy, fast screening impactor, twin glass impinger, and high performance liquid chromatography. Direct working experiences in handling cell culture and

- Physico-chemical characterization of nanoparticles
- *In vitro* test on adherent cell culture
- Thesis advisor
- Processing for scientific articles

April 16 – May 29, 2018 and Nov 1 – Dec 31, 2017

RESEARCH ASSISTANT

University of Modena and Reggio Emilia

Management of 2 research projects on carrier for inhalation therapy and artificial *stratum corneum* models.

- Characterization and *In vitro* test of lipid carrier
- Permeation study across SC models
- Contacts and relations with suppliers
- Preparation of oral communication and posters
- Author of 2 patents

Sept 1 – Nov 1, 2014

POSTGRADUATE STAGE

Lab. of Nanotechnology and Drug Delivery, Prof. Maria Jose Blanco Prieto

University of Navarra, Pamplona

Research project on “Cytotoxicity and internalization of Solid Lipid Microparticles as inhaled carriers of rifampicin”.

- *In vitro* test on suspension cell culture
- Optimization of freeze-drying condition

Feb 15 – Sept 1, 2014 and May 1, 2013 – Jan 1, 2014

RESEARCH ASSISTANT

University of Modena and Reggio Emilia

Management of 2 research projects on design and validation of nanoparticles for tuberculosis therapy and nanoclay for *Helicobacter pylori* infection

- Executive agent of the projects
- Graduating students' supervisor

EDUCATION

Apr 20, 2020 – Dec 10, 2020

PerFormS srl selected by G-Factor for acceleration program “G-Force Life Science 2020”

Fondazione Golinelli, Bologna

related tasks with capacity to perform treatments of cytotoxicity, numbering, coloration and treatment for the preparation of samples for analysis by flowcytometry and confocal microscopy. Statistical analysis using ANOVA test.

Informatics

Microsoft Office, Adobe Photoshop, Adobe Lightroom, GraphPad Prism, Windows, Mac OS, iMovie,

Social

Very good adaptability and collaboration in the workplace group, excellent communication skills with companies, agencies and organizations

PROFESSIONAL SOCIETY

MEMBERSHIP

Società dei Matematici e Naturalisti di Modena

HOBBIES AND INTEREST

Photography and cooking

In compliance with the GDPR and the Italian Legislative Decree no. 196 dated 30/06/2003, I hereby authorize you to use and process my personal details contained in this document.

Apr 1, 2019 – Jul 1, 2019

School of Innovation and Entrepreneurship

The ReActor program

Fondazione Golinelli, Bologna

Selected for business project “Micro-ReSkin”, a dermocosmetic cream for skin reparation using nanoparticle technology.

Nov 1, 2014 – Nov 1, 2017

Ph.D. in Clinical and Experimental Medicine (Medicinal and Pharmaceutical Sciences curriculum)

University of Modena and Reggio Emilia

Thesis entitled “Anti-tuberculosis therapy by pulmonary route: passive and active targeting to macrophages using lipid nanoparticle assemblies”

Nov 1, 2010 – Apr 15, 2013

Master's degree in Medical and Pharmaceutical Biotechnology (Pharmaceutical curriculum)

University of Modena and Reggio Emilia

Thesis entitled “Inhaled drug delivery system to target alveolar macrophages for tuberculosis therapy: design of safe SLM loaded with rifampicin”. Final mark: 110/110

Oct 1, 2007 – Oct 20, 2010

Bachelor's degree in Pharmaceutical Biotechnology

University of Modena and Reggio Emilia

Thesis entitled “Validation of Hsp90 and HDAC6 dual inhibitors by virtual screening”. Final mark: 104/110

Sept 10, 2002 – Jun 12, 2007

High School Biology Diploma

Istituto tecnico per le attività sociali A. Mantegna, Mantova
Final mark: 95/100
