

STEFANIA GATTI

Associate professor of Mathematical Analysis

Personal Data

Address: Dipartimento di Scienze Fisiche, Informatiche e Matematiche
Università di Modena e Reggio Emilia,
via Campi 213/B, 41125 Modena,
tel. +39 (0)59 2058386, fax.+39 (0)59 2055216
e-mail: stefania.gatti@unimore.it
OrcID <http://orcid.org/0000-0002-4115-4239>

Education

(1992) Degree in Mathematics, Università di Modena
(1997) PhD in Mathematics, Politecnico di Milano

Academic Career

(1998-1999) (GNAFA) CNR grant
(1999-2002) Post-doc position in PDEs, Dipartimento di Matematica-Politecnico di Milano
(2002-2006) Assistant Professor of Mathematical Analysis MAT/05, Università di Ferrara.
(2006–October 2014) Assistant Professor of Mathematical Analysis MAT/05, Università di Modena e Reggio Emilia.
(November 2014–present) Associate Professor of Mathematical Analysis MAT/05, Università di Modena e Reggio Emilia.
Qualified as Full Professor at the National Scientific Qualification in Italy (Professore Ordinario) (Validity: 09/11/2020 – 09/11/2029).

Teaching:

Bachelor Degree: Courses of Calculus, Function Theory (2016-present)
Master Degree: Functional Analysis, Evolution Equations
PhD: (in Economics) Discrete Dynamical systems
GADeS 2017 Summer School: Stability and Bifurcation of Dynamical Systems: Theoretical Aspects and Applications. Lecture on "Global Study of the Asymptotic Behavior" (organized by Associazione Italiana di Meccanica Teorica ed Applicata").

Research Fields

Partial differential equations; asymptotic behavior of dynamical systems associated with evolution equations of hyperbolic and parabolic type; memory relaxation of evolution equations.

PROCEEDINGS

- [Proc1] **S. Gatti**, M. Grasselli: *Convergence to stationary states of solutions to the semilinear equation of viscoelasticity* Differential Equations: Inverse and Direct Problems Lecture notes in Pure and Applied Mathematics Taylor and Francis, 131-147, 2006.(refereed)
- [Proc2] **S. Gatti**, A. Miranville: *Global and Exponential Attractors for a phase-field system with dynamic boundary conditions* Differential Equations: Inverse and Direct Problems Lecture notes in Pure and Applied Mathematics, Taylor and Francis, 149–170, 2006.(refereed)
- [Proc3] L. Cherfils **S. Gatti**, A. Miranville: *Finite dimensional attractors for the Caginalp system with singular potentials and dynamic boundary conditions* Bulletin of the Transilvania University of Braşov Proc. 9^{ème} Colloque franco-roumain de math. appl., 28 août - 2 septembre 2008, Braşov, Romania, 2009, .(refereed)

Visiting

09/05/2004-14/05/2004 Invited visiting at Laboratoire de Mathématiques et Applications, Université de Poitiers, France.

28/04/2008-02/05/2008 Invited visiting at Laboratoire de Mathématiques et Applications, Université de Poitiers, France.

09/11/2011 Invited visiting at the Department of Mathematics, Indiana University.

04/12/2011 – 11/12/2011 Invited visiting at the Institute of Mathematics of the Academy of Sciences of the Czech Republic, Praha.

01/07/2013 – 09/07/2013 Invited visiting at Laboratoire MIA, Mathématiques, Image et Applications, Université de La Rochelle-France.

04/12/2018 – 07/12/2018 Invited visiting at Laboratoire de Mathématiques et Applications, Université de Poitiers, France.

Research Projects

2003- Member of the research project "Studio di modelli matematici governati da equazioni differenziali: aspetti teorici, buona positura, proprietà qualitative delle soluzioni, risultati numerici". Co-financed by M.I.U.R. - Coordinated by G. Talenti

2004-2006: Member of the research project "Dinamica a lungo termine e problemi di regolarità per modelli di cambiamento di fase". Co-financed by M.I.U.R. - Coordinated by A. Visintin

2006 -2008: Member of project "Analisi asintotica e metodi geometrici per problemi di cambiamento di fase". Co-financed by M.I.U.R. - Coordinated by A. Visintin

2007-2008: Member of the Galileo project "Modelli matematici in scienza dei materiali"- Coordinated by G. Schimperna-A. Miranville.

2008-2010: Member of the project "Transizioni di fase, isteresi e scale multiple". Co-financed by M.I.U.R. - Coordinated by A. Visintin

2013: Member of the GNAMPA project "Analisi di modelli di tipo Navier-Stokes" (Analysis of Navier-Stokes type models).

2016: Member of the GNAMPA project "Regolarità e comportamento asintotico di soluzioni di equazioni paraboliche" (Regularity and asymptotic behavior of solutions to parabolic equations).

2017: Member of the GNAMPA project "Comportamento asintotico di sistemi dissipativi non locali" (Asymptotic behavior of nonlocal dissipative systems).

2017: Coordinator of the project UNIMORE FAR2017 "Equazioni differenziali: problemi evolutivi, variazionali e applicazioni "

2020: FAR Impulso 2020 grant

Selected talks

13-05-2004 *On the robustness of exponential attractors*, Laboratoire d'Applications des Mathématiques - SP2MI, University of Poitiers-France.

2004 *Hyperbolic relaxation of the viscous Cahn-Hilliard equation in 3-D*, "Free boundary problems in Biomathematics, Multiscaling, Infinite-Dimensional Dynamical Systems" (Montecatini, June 10-12).

2004 *Hyperbolic relaxation of the Allen-Cahn equation*, “IperPisa 2004”, Incontro Nazionale sulle Equazioni Iperboliche (Pisa, October 20-22).

2006 *Navier-Stokes limit of Jeffreys type flows*, “AIMS Conference” (Poitiers, June 24-29).

2008 *Uniform decay properties of linear Volterra integro-differential equations*, “Convegno SIMAI 2008” (Roma, Università La Sapienza, Facoltà di Ingegneria, September 16)

2010 *Continuous Families of Exponential Attractors for Singularly Perturbed Equations with Memory*, 2010 AIMS Meeting, special session “Qualitative Behavior of Dissipative Dynamical Systems” (Dresden, May 25-28)

2010 *Continuous Families of Exponential Attractors for Singularly Perturbed Equations with Memory*, ICMS Workshop “Dissipative PDEs in Bounded and Unbounded Domains and Related Attractors” (Edinburgh, September 20-24)

19-05-2011 *Decadimento uniforme per Equazioni integro-differenziali e lineari di Volterra* Seminario di Analisi ”Pini”, Dipartimento di Matematica dell’Università di Bologna

20-06-2011 *Long time behavior of the Caginalp system with singular potentials and dynamic boundary conditions* INDI2011, Interfaces and discontinuities in Solids, Liquids and Crystals, Gargnano June 20-23, 2011

09-11-2011 *Long time behavior of the Caginalp system with singular potentials and dynamic boundary conditions* Department of Mathematics, Indiana University (USA)

16-11-2011 *Long time behavior of the Caginalp system with singular potentials and dynamic boundary conditions* SIAM conference on Analysis of Partial Differential Equations, (San Diego, CA, November 14–17)

06-12-2011 *Well-posedness and asymptotic behavior of a Caginalp model with singular potential and dynamic boundary conditions*, Institute of Mathematics of the Academy of Sciences of the Czech Republic, Praha, Czech Republic

09-07-2014 *Pullback exponential attractor for 2D CHNS system* AIMS Conference, (Madrid, July 7–11)

14-00-2016 *Multi-component Cahn-Hilliard systems with dynamic boundary conditions* SIMAI conference 2016, (Milano, September 13–16)

06-12-2018 *Well-posedness and long-time behavior of a 2D thermodynamically consistent model for two-phase fluids* Laboratoire d’Applications des Mathématiques - SP2MI, University of Poitiers-France

25-06-2019 *Mathematical analysis of a model for proliferative-to-invasive transition of hypoxic glioma cells*, 39ème Colloque de la Société Francophone de Biologie Théorique, Poitiers (France), June 24-27, 2019

Organization

Organizer with Michela Eleuteri of the Summer School “*Dissipative Dynamical Systems and Applications*”, September 3-7, 2018, Modena, for which she obtained a grant from GNAMPA-INDAM.

Faculty Duty

Member of the Department Research Commission.

Advisory

2012-2019 and 2020-present Member of the Board of the PhD in Mathematics of the Universities of Modena and Reggio Emilia, Ferrara, Parma

2018 Advisor with Michela Eleuteri of the master degree thesis in Mathematics *Existence and Uniqueness for non-isothermal Cahn-Hilliard equation* by Andrea Zafferri.

2019 Advisor of the bachelor degree thesis in Mathematics *Applicazione del teorema di Lax Milgram ad un problema ai limiti ellittico* by Francesco Fiorani.

2020 Advisor of the bachelor degree theses in Mathematics

- *Applicazione al ciclo glutammato glutammina dei teoremi di esistenza e unicità in grande per equazioni differenziali ordinarie* by Caterina Camellini
- *Analisi di un modello matematico per la dinamica cerebrale del lattato* by Giulia Monopoli

Editorial Boards

AIMS Mathematics

Other Professional Activities

14-10-2016 Member of the PhD Commission and rapporteur for the PhD Thesis "Etude de modèles en séparation de phase tenant compte d'effets d'anisotropie" by Ahmad Makki (supervisor Alain Miranville), Doctorat Mathématiques et leurs interactions, Université de Poitiers, France

07-12-2018 Member of the PhD Commission and rapporteur for the PhD Thesis "Analyse mathématique et numérique de plusieurs problèmes non linéaires" (supervisors Laurence Cherfils and Alain Miranville), École Doctorale Sciences et Ingénierie des Systèmes, Mathématiques, Informatique, Université de Poitiers, Specialite: Mathématiques, France
